Linwood Public Schools Free-Reduced Meal Application

The Linwood School District is committed to ensuring that all of our students, regardless of the economic conditions in our geographic area, are provided with all necessary resources to succeed. The Linwood Schools encourage all families that are eligible to apply for participation in the federal free and reduced lunch program. Participation in this program provides your student with a free or reduced cost breakfast and lunch.

The Linwood Schools provide this service through Mainland Regional High School. Our District application is provided through Mainland and is accessible through the following links:
